WORK EXPERIENCE

Serif Health

FOUNDING ENGINEER | JULY 2022 - PRESENT

- As a founding engineer, I led the end-to-end development of a platform that captured and analyzed terabytes of Transparency in Coverage pricing data, while representing the company at healthcare conferences, supporting enterprise sales efforts, and translating customer feedback into product strategy.

Navigating Care

SENIOR SOFTWARE ENGINEER | MAY 2019 - JULY 2022

- Led the design and delivery of patient-reported outcomes (PRO) initiatives that enabled healthcare providers and researchers to capture, analyze, and act on patient-reported data, improving visibility into treatment effectiveness and quality of life for cancer patients.

MultiScale Health Networks

SOFTWARE ENGINEER | JANUARY 2018 - MAY 2019

- Developed cloud based healthcare solutions that enable care providers to spend more meaningful and efficient time with patients, with a focus on delivering healthcare information in real-time to resource decision makers such as the department charge nurse or the house supervisor.

iTrellis

SOFTWARE ENGINEERING CONSULTANT | MAY 2016 - JAN 2018

- Advised clients on modern software engineering practices, including architecture, CI/CD, testing strategies, code reviews, and Agile development, to improve delivery quality and velocity.

ATGStores / Lowe's Home Improvement

SOLUTIONS ARCHITECT | OCTOBER 2015 - MAY 2016

- Implemented a standardization of development tools, practices, and workflows within the department utilizing the Atlassian tool suite to control work item tracking and builds of .NET applications spanning from accounting console applications to full eCommerce websites.

SOFTWARE TEAM LEAD | OCTOBER 2013 - OCTOBER 2015

- My team was responsible for building and maintaining business system integrations with Ariba PunchOut, Synchrony Financial, and other third party services.

SOFTWARE ENGINEER | FEBRUARY 2012 - OCTOBER 2013

- Built and maintained internal applications supporting the marketing, accounting, fulfillment, and customer service teams
